CORAL SHADES PREFERRED

Lipsticks and nail lacquers are seen in variations of coral, and not only are they beloved by blonds and brunettes alike, but redheads always have clamored for coral shades.

NATIONAL BLOOD PROGRAM

Today there are approximately 6000 hospitals in the United States. Only one out of every five has a private blood bank. There is no provision for an adequate supply of blood in case of a national emergency. That is why the nation's medical, health and hospital authorities decided with the Army and Navy that a national Blood Program is needed.
